

Up-Rev offers engineering services for innovative COVID-19 product solutions
Product Development Engineering company looking to help inventors rapidly develop COVID solutions

Melbourne, FL – May 21, 2020 - Today, Up-Rev Inc., an engineering company specializing in new product development, announced they are looking for products that will help better lives during the coronavirus pandemic. Coming out of several fast-paced years, Up-Rev is looking to utilize their downtime to make a difference. The company is now seeking inventive ideas from the public, pledging up to \$100,000 to help make them a reality.

“We are excited to use this opportunity to give back to the community. We are fortunate to have a staff of experienced engineers and time to commit to developing products that improve our lives during this pandemic, and help prevent future outbreaks,” says Keith Nugent, Business Development Manager at Up-Rev.

To kickstart innovative COVID-19 solutions, Up-Rev will:

- Field product ideas until June 19th, 2020 at info@up-rev.com
- Offer free consultations to individuals and businesses with viable ideas
- Grant product development services up to \$100,000
- Provide discounted office and manufacturing space
